SUMMARY

Frontend engineer specializing in Next.js, TypeScript, and Tailwind CSS, with hands-on experience building role-based dashboard products and a growing full-stack skill set in Node.js and PostgreSQL. Currently a Frontend Engineering Intern at Tektariq IT Solutions Limited and a Frontend Development Instructor at Tektariq Academy. Recognized as Best Graduating Student, Web Development Stack, at IOTB-TECH 2025.

SKILLS

Frontend: Next.js 15 (App Router), TypeScript, JavaScript, React, Tailwind CSS, Zustand, TanStack Query

Backend & full-stack: Node.js, Express, MongoDB, PostgreSQL, Prisma, REST APIs, JWT authentication

Tools & practices: Git/GitHub, responsive design, Mapbox GL JS, Vercel deployment

EXPERIENCE

Frontend Development Instructor — Tektariq Academy May 2026 – Present

- Designed and authored a 16-week (4-month) frontend engineering curriculum covering HTML, CSS, JavaScript, Tailwind CSS, React, Next.js (App Router), Git/GitHub, and technical interview preparation.
- Leading onboarding and cohort setup ahead of the program's official start, structuring curriculum delivery and assessment for an incoming cohort.

Frontend Engineering Intern — Tektariq IT Solutions Limited March 2026 – Present

- Built and shipped production features using Next.js, TypeScript, and TanStack Query, deepening fluency in server-state management and modern React patterns through real client work.
- Participated in ongoing book-review sessions on The Phoenix Project, examining engineering culture, incident response, and cross-team collaboration in software delivery.

PROJECTS

Tayora Sustain — three-sided circular-economy platform for textile waste management [Live demo](#)
Next.js (App Router), TypeScript, Tailwind CSS v4, Zustand, TanStack Query

- Sole frontend developer on a shipped MVP connecting suppliers, requesters, and admins through role-based dashboards; built the landing page, authentication flows, and a dashboard shell with role-specific sidebar variants wired to a TanStack Query auth hook.

Cognify LMS — full-stack learning management system
Next.js, TypeScript, Tailwind CSS, Zustand, TanStack Query, Node.js/Express, MongoDB

- Built student and instructor dashboards supporting course creation, multi-format lesson delivery, progress tracking, and discussions; established reusable patterns including normalized API response types and role-guarded routing.

LASU Navigate — campus web-GIS navigation app (final year project)
Next.js, TypeScript, Tailwind CSS, Mapbox GL JS (react-map-gl)

- Built an intra-campus navigation app covering 52 campus locations with category filters, live geolocation, and turn-by-turn walking directions via the Mapbox Directions API.

EDUCATION

Lagos State University (LASU) — B.Sc. Computer Science Expected August 2026
CGPA: 4.69/5.0 (First Class). Recognized as Best Graduating Student, Web Development Stack, IOTB-TECH 2025.
